

Remember that every test and quiz will have answers to other questions within the assessment.

**Word Bank**

Atmosphere Mountains Biosphere Elevation Hydrosphere Plains  
Relief Lithosphere Landforms Plateaus

1. The **topography** of an area determined by the area's \_\_\_\_\_,  
\_\_\_\_\_, and \_\_\_\_\_.
2. The three main type of **landforms** are \_\_\_\_\_,  
\_\_\_\_\_, and \_\_\_\_\_.
3. The four **spheres** that the Earth is divided into are the \_\_\_\_\_,  
\_\_\_\_\_, \_\_\_\_\_, and \_\_\_\_\_.

**Match each letter with the best definition.**

- |                                  |   |
|----------------------------------|---|
| ___ 4. plateau                   | a. A large area of land where the topography is similar                               |
| ___ 5. elevation                 | b. The shape of the land  |
| ___ 6. <b>topography</b>         | c. Flat or gently rolling land  |
| ___ 7. relief                    | d. a landform that has high elevation and a fairly level surface                      |
| ___ 8. plain                     | e. The height above sea level of a point on Earth's surface                           |
| ___ 9. <b>landform</b><br>region | f. The difference in elevation between the highest and<br>the lowest parts of an area |

**Fill in the blanks with the word bank below:**

high low hydrosphere lithosphere atmosphere biosphere

- \_\_\_\_\_ 10. A mountain has \_\_\_\_\_ relief.
- \_\_\_\_\_ 11. A plain has \_\_\_\_\_ relief.
- \_\_\_\_\_ 12. In which **sphere** would you find Earth's waters?
- \_\_\_\_\_ 13. In which **sphere** would you find plants and animals?
- \_\_\_\_\_ 14. In which **sphere** would you find rocks?
- \_\_\_\_\_ 15. In which **sphere** would you find Earth's gasses?

## True/False

16. T or F The Prime Meridian and Equator are similar because they both are **ninety degrees**.
17. T or F The Prime Meridian and Equator are similar because they both divide the world **in half**.
18. T or F Latitude and longitude are measured in **centimeters**.
19. T or F When Earth is drawn as a flat map, the continents are **distorted**.
20. T or F The hand held devise that can tell the exact location of a person on the Earth is called a **G.P.S?**
21. T or F The government agency that is responsible for making topographic maps in the U.S. is the **F.B.I.**
22. T or F On any given map, you can have more than one contour interval.
23. T or F This is the symbol for an airport. ✕✕✕
24. T or F Contour lines can touch, but never overlap.

\_\_\_\_\_ 25. Which letter is 0 feet?

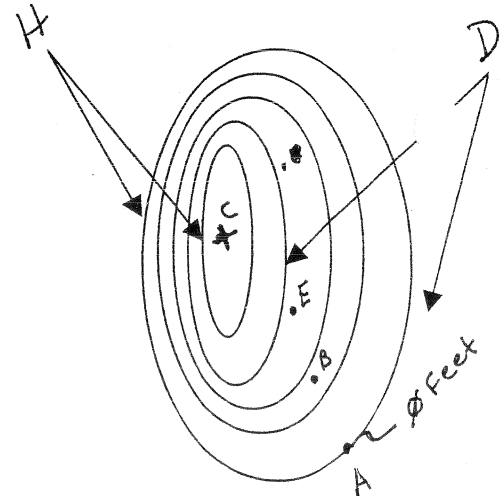

\_\_\_\_\_ 26. Which letter is about 30 feet E or B?

\_\_\_\_\_ 27. Which letter shows a gradual slope D or H?

\_\_\_\_\_ 28. Which letter shows a steep slope?

\_\_\_\_\_ 29. Which letter has the highest elevation?

\_\_\_\_\_ 30. Which letter has the lowest elevation?

Contour  
Interval  
20 feet

31. Give the coordinates for letter A and B below using latitude and longitude.

A = \_\_\_\_\_ Degrees North Latitude, \_\_\_\_\_ Degrees West Longitude

B = \_\_\_\_\_ Degrees North Latitude, \_\_\_\_\_ Degrees West Longitude
