Re: Update on Lease of Building to Town

Frontier Educational Community:

We have been advised by the Office of the State Commissioner of Education that the lease of the District's Education Center building to the Town of Hamburg must be terminated as of June 30, 2023. The District remains willing to discuss how the Town may share the building with us to accommodate its Youth, Recreation and Senior Services program; provided, of course, that the Commissioner approves any such arrangement as required by law.

We currently are in communication with the Town, and hope to begin our discussions as soon as possible.
