

## Dear Parents/Guardians of Frontier Central School District,

Frontier Central School District is introducing new technology to its student transportation operation to help ensure the safety of your students: the Versatrans My Stop™ mobile app. This solution makes it easier for you to have the best possible student transportation experience.

### Real-time Access

The Versatrans My Stop mobile app for Apple and Android devices can help ensure that your students never miss the bus again. The app uses GPS geolocation to show where your child's bus is during its morning and afternoon routes, and estimates what time the bus will arrive at your designated stop based on its location. On cold or rainy days, this will allow you to minimize time spent outside waiting for the bus.

### Data Security

You will be given unique user credentials to the app, provided by Frontier Central School District. This log in will allow you to see only the bus information for your child or children — you cannot see the transportation information of other students, and no one but you can see the information for your own.

### A Focus on the Future of Student Transportation

Frontier Central School District is focused on providing safe transportation to its students. With the addition of Versatrans My Stop, they show an ongoing commitment to that safety, and to providing parents and guardians with the information you need to feel secure and informed.

### My Stop Application Setup and Login

Search the app store for "Versatrans My Stop" to download the app.

Your Login: will be the student's name. (Example: First.Last)

Your Password: will be the student's date of birth. (Example: MMDDYYYY)

\*\*Please note, your login may not be active until the school year begins.

For more information, you can reach out to your district staff, or send inquiries o [info@tylertech.com](mailto:info@tylertech.com).
