ELEMENTARY STUDENT HANDBOOK

Includes

CODE OF CONDUCT

2020-2021

Dear Parents:

The successful development and achievements of each child require that a cooperative relationship exists between home and school. Frontier parents are concerned about their children's character, physical well-being and emotional stability as is apparent in the general behavior, health and personalities of our students. Our school personnel want to continue to build upon these strengths.

In a democracy, rules are made to insure the safety and rights of all. American democracy works because of the respect of the majority of its citizens for rules, formalized into law.

The Board of Education and the Frontier Central School District have adopted a Code of Conduct governing students in Kindergarten classes to Grade 12 in compliance with the Safe Schools Against Violence in Education (SAVE) law. This handbook is intended to supplement this Code by offering further explanation of District policies with particular reference to elementary students, as well as other administrative matters.

This handbook was developed so that students and their parents know and understand what school rules are and the subsequent actions that may be taken should those rules not be followed. Although this information has been reviewed with students, we recommend that you and your child read and discuss it together. It is important that pupils are aware of rules written for their protection.

Children benefit from our understanding and direction. Your supportive attitude toward school and education will help us this goal.

Sincerely,

Elementary School Staff

Code of Conduct

Philosophy

The Frontier Central Board of Education is committed to providing a safe and orderly school environment where students may receive and District personnel may deliver quality educational services without disruption or interference. Responsible behavior by students, teachers, other District personnel, parents and other visitors is essential to achieving this goal.

The district has a long-standing set of expectations for conduct on school property and at school functions. These expectations are based on the principles of civility, mutual respect, citizenship, character, tolerance, honesty and integrity.

The Board recognizes the need to clearly define these expectations for acceptable conduct on school property and at school functions, to identify the possible consequences of unacceptable conduct, and to ensure that discipline, when necessary, is administered promptly and fairly. To this end, the Board adopts this Code of Conduct (“Code”).

Unless otherwise indicated, this Code applies to all students, school personnel, parents, and other visitors when on school property or attending a school function.

Student Rights & Responsibilities

A. Student Rights

The District is committed to safeguarding the rights given to all students under state and federal law. In addition, to promote a safe, healthy, orderly and civil school environment, free from bullying or harassment by school employees or students, all District students have the right to:

1. Take part in all District activities on an equal basis regardless of actual or perceived race, color, weight, national origin, ethnic group, religion, religious practice, disability, sexual orientation, gender, or sex.
2. Present their version of the relevant events to school personnel authorized to impose a disciplinary penalty in connection with the imposition of the penalty.
3. Access school rules and, when necessary, receive an explanation of those rules from school personnel.

B. Student Responsibility

All District students have the responsibility to:

1. Contribute to maintaining a safe and orderly school environment that is conducive to learning and to show respect and dignity to other persons and to property.
2. Be familiar with and abide by all District policies, rules and regulations dealing with student conduct.
3. Attend school every day unless they are legally excused and be in class on time prepared to learn. Chronic absence may affect the student’s ability to participate in school events.
4. Work to the best of their ability in all academic and extra-curricular pursuits and strive toward their highest level of achievement possible.
5. React in a respectful, positive manner to direction given by teachers, administrators and other school personnel.
6. Work to develop mechanisms to control their anger.
7. Seek help in solving problems that might lead to discipline.
8. Dress appropriately for school and school functions.
9. Accept responsibility for their actions and develop self-advocacy skills.
10. Store outerwear, book bags, totes, in their lockers during the school day. All electronic devices should be on silent mode. It is recommended that personal electronic devices be stored in the student’s locker. The Frontier Central School District is not responsible for lost or stolen items. Personal electronic devices are allowed to be used on Frontier Central School District property, providing the user follows District Policy. School property is defined as the school bus, school buildings and grounds, etc. Taking pictures or the recording of any student or any Frontier School District employee is a violation of that student/employee’s privacy rights and will be subject to discipline. Under certain circumstances legal authorities may be contacted.
11. Conduct themselves as representatives of the District when participating in or attending school-sponsored extra-curricular events and to hold themselves to the highest standards of conduct, demeanor, and sportsmanship.
12. Abide by the Dignity for All Students Act (See Policy 7549 on page 41)

Student Dress Code

All students are expected to give proper attention to personal cleanliness and to dress appropriately for school and school functions. Students and their parents have the primary responsibility for acceptable student dress and appearance. Teachers and all other District personnel should exemplify and reinforce acceptable student dress and help students develop an understanding of appropriate appearance in the school setting.

This code is designed to be a guide and is by no means all inclusive. Final decisions concerning appropriateness of dress will be made by building administration.

A student’s dress (male or female), grooming and appearance, including hair style/color, jewelry, makeup and nails shall be safe, appropriate and not disrupt or interfere with the educational process. Students in grade K-12 shall not wear the following:

1. Any clothing, apparel, footwear or jewelry which:
* is considered unsafe, dangerous or a health hazard (no outerwear shall be worn during the school day);

- * contains offensive or obscene symbols, signs, slogans or words denigrating any person's race, color, religion, ancestry, national origin, disability, gender or sexual orientation; or any other illegal or violent activity.
 - * contains language or symbols promoting or endorsing violence, sex, drugs, alcohol, tobacco, vaping, nicotine or vandalism;
2. Any attire or grooming disruptive to the instructional process which may include, but is not limited to:
- * bare midriffs, halter tops, tube tops and any clothes insufficient to conceal undergarments at all times, such as net/mesh shirts, blouses, shirts or dresses that are transparent and/or expose cleavage; unbuckled belts

- ** Exception - can be made by school administrator for the wearing of articles of clothing normally prohibited for school-wide celebrations (ie: homecoming, etc.)

Exceptions to the Dress Code necessitated by religious practice will be considered individually by the building administrator.

Provisions of the Dress Code are applicable at all times within the school building and during all school activities. Exception or modification of a provision of the dress code may be authorized by the building principal for a specific school-related activity on a single event basis.

Each building principal or his/her designee shall be responsible for informing all students and their parents of the student dress code at the beginning of the school year and any revisions to the dress code made at the building level during the school year.

Students who violate the student dress code shall be required to modify their appearance by covering or removing the offending item and, if necessary or practical, replacing it with an acceptable item. Any student who refuses to do so shall be subject to discipline, up to and including school suspension for the day. Any student who repeatedly fails to comply with the dress code shall be subject to further discipline, up to and including out-of-school suspension.

Prohibited Student Conduct

The Board of Education expects all students to conduct themselves in an appropriate and civil manner, with proper regard for the rights and welfare of other students, District personnel and other members of the school community, and for the care of school facilities and equipment.

The best discipline is self-imposed, and students must learn to assume and accept responsibility for their own behavior, as well as the consequences of their misbehavior. District personnel who interact with students are expected to use disciplinary action only when necessary and to place emphasis on the students' ability to grow in self-discipline.

The Board recognizes the need to make its expectations for student conduct while on school property or engaged in a school function specific and clear. The rules of conduct listed below are intended to do that and focus on safety and respect for the rights and property of others. Students who will not accept responsibility for their own behavior and who violate these school rules will be required to accept the penalties for their conduct.

Reporting Violations

All students are expected to promptly report violations of the Code of Conduct to a teacher, guidance counselor, the building principal or his/her designee. Any student observing a student possessing a weapon, alcohol or illegal substance on school property or at a school function shall report this information immediately to a teacher, the building principal, the principal's designee or the superintendent.

Disciplinary Penalties

Procedures and Referrals

Discipline is most effective when it deals directly with the problem at the same time and place it occurs, and in a way that students view as fair and impartial. School personnel who interact with students are expected to use disciplinary action only when necessary and to place emphasis on the students' ability to grow in self-discipline.

Disciplinary action, when necessary, will be firm, fair and consistent so as to be the most effective in changing student behavior. In determining the appropriate disciplinary action, school personnel authorized to impose disciplinary penalties may consider the following:

1. The student's age.
2. The nature of the offense and the circumstances which led to the offense.
3. The student's prior disciplinary record.
4. The effectiveness of other forms of discipline.
5. Information from parents, teachers and/or others, as appropriate.

6. Other extenuating circumstances.

A. Penalties

Students who are found to have violated the District's Code of Conduct may be subject to the following penalties, either alone or in combination. The school personnel identified after each penalty are authorized to impose that penalty, consistent with the student's right to due process. Such penalties may include, but are not limited to:

*Oral warning—any member of the District staff.

*Written warning—bus drivers, hall and lunch monitors, coaches, guidance counselors, teachers, assistant principals, principals, superintendent

*Written notification to parent—bus driver, hall and lunch monitors, coaches, guidance counselor, teachers, assistant principals, principal, superintendent.

*Detention—Assistant principals, principal, superintendent.

*Suspension from transportation—Director of Transportation, principal, superintendent.

*Suspension from athletic participation—on the recommendation of coaches to Athletic Director, principal, superintendent.

*Suspension from social or extra-curricular activities—on the recommendation of activity director, principal, superintendent.

*In-school suspension—principal, superintendent.

*Removal from classroom by teacher for up to two days for persistently disrupting the educational process as per Education Law 3214 — teachers, assistant principals, principal.

*Short-term (5 days or less) suspension from school—principal, superintendent.

*Long-term (more than 5 days) suspension from school—superintendent.

*Permanent suspension from school—superintendent.

*The principal/asst. principal will work collaboratively with students and a teacher when there are continuing disruptions between or among student(s) & a teacher in a classroom situation.

B. Procedures

The amount of due process a student is entitled to receive before a penalty is imposed depends on the penalty being imposed. In all cases, regardless of the penalty imposed, the school personnel authorized to impose the penalty must inform the student of the alleged misconduct and must investigate, to the extent necessary, the facts surrounding the alleged misconduct. All students will have an opportunity to present their version of the facts to the school personnel imposing the disciplinary penalty in connection with the imposition of the penalty.

Students who are to be given penalties other than an oral warning, written warning or written notification to their parent are entitled to additional rights before the penalty is imposed. These additional rights are explained below.

1. Detention

Teachers may recommend and principals and the superintendent may use after-school detention as a penalty for student misconduct in situations where removal from the classroom or suspension would be inappropriate. Detention will be imposed as a penalty when the student's parent has been notified to confirm that there is no parental objection to the date of the penalty and the student has appropriate transportation home following detention.

2. Suspension From Transportation

If a student does not conduct himself/herself properly on a bus, the bus driver is expected to bring such misconduct to the building principal's attention. Students who become a serious disciplinary problem may have their riding privileges suspended by the building principal or the superintendent or their designees. In such cases, the student's parent will become responsible for seeing that his/her child gets to and from school safely. Should the suspension from transportation amount to a suspension from attendance, the District will make appropriate arrangements to provide for the student's education.

A student subjected to a suspension from transportation is not entitled to a full hearing pursuant to Education Law 3214. However, the student and student's parent will be provided with a reasonable opportunity for an informal conference with the building principal or the principal's designee to discuss the conduct and the penalty involved.

3. Suspension From Athletic Participation, Extra-curricular Activities & Other Privileges

A student subjected to a suspension from athletic participation, extra-curricular activities or other privileges is not entitled to a full hearing pursuant Education Law 3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the District's official imposing the suspension to discuss the conduct and the penalty involved. Refer to *Regulations for Athletes and Cheerleaders* (obtained in the Athletic Office at the High School and on the Frontier Central website at www.frontiercsd.org).

4. In-School Suspension

The Board recognizes the school must balance the need of students to attend school and the need for order in the classroom to establish and environment conducive to learning. As such, the Board authorizes the building principals and the superintendent to place students who would otherwise be suspended from school as the result of a Code of Conduct violation in "in-school suspension." The in-school suspension teacher will be a certified teacher.

5. Teacher Disciplinary Removal of Disruptive Students

A student's behavior can affect a teacher's ability to teach and can make it difficult for other students in the classroom to learn. In most instances the classroom teacher can control a student's behavior and maintain or restore control over the classroom by using good classroom

management techniques. These techniques may include practices that involve the teacher directing a student to briefly leave the classroom to give the student an opportunity to regain his/her composure and self-control. Best practice classroom management techniques such as these do not constitute disciplinary removals for purposes of this Code.

A disruptive student is one whose persistent, overt behaviors cannot be managed through traditional classroom practices without intervention and has become a serious disruption to the learning process. A classroom teacher may remove a disruptive student from a class for up to two days consistent with discipline measures outlined. The student will be placed in the in-school suspension room with work provided by the classroom teacher. The removal from class applies to the class of the removing teacher only.

A classroom teacher may remove a disruptive student from class for up to two days of time. The removal from class only applies to the class of the removing teacher and must comply with the procedures delineated in the District Code of Conduct.

Teacher must make verbal communication with parent prior to student's removal from class for an extended period of time. Prior to the student's return to the classroom, a conference will be held that includes the student, the teacher, the student's counselor, the parent/guardian and an administrator.

A student who is subjected to an in-school suspension is not entitled to a full hearing pursuant to Education Law 3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the District official imposing the in-school suspension to discuss the conduct and the penalty involved

6. Suspension From School

Suspension from school is a severe penalty, which may be imposed only upon students who are insubordinate, disorderly, violent or disruptive, or whose conduct otherwise endangers the safety, morals, health or welfare of others.

The Board retains its authority to suspend students, but places primary responsibility for the suspension of students with the superintendent and the building principals.

a. Short-term (5 days or less) Suspension from School

When the superintendent or principal (referred to as the "suspending authority") proposes to suspend a student charged with misconduct for 5 days or less pursuant to Education Law 3214(3), the suspending authority must immediately notify the student orally. If the student denies the misconduct, the suspending authority must provide an explanation of the basis for the proposed suspension. The suspending authority must also notify the student's parent in writing that the student may be suspended from school. The written notice will be provided to the parents. Where possible, notice should also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting the parents.

b. Long-term (more than 5 days) Suspension from School

When the superintendent, upon the recommendation of the building principal, determines that a suspension for more than 5 days may be warranted, he/she shall give reasonable notice to the student and the student's parent of a hearing and the charges. Such notice shall also include a description of the due process rights including: their right to be represented by counsel, the right to question witnesses against him/her and the right to present witness and other evidence on his/her behalf.

c. Permanent Suspension

Permanent suspension is reserved for extraordinary circumstances such as when a student's conduct poses a life-threatening danger to the safety and well-being of other students, school personnel or any other person lawfully on school property or attending a school function.

C. **Minimum Periods of Suspension**

1. Students Who Bring a Weapon to School

Any student, other than a student with a disability, found guilty of bringing a weapon (as defined by Board policy) onto school property will be subject to suspension from school for at least one calendar year. Before being suspended, the student will have an opportunity for a hearing pursuant to Education Law 3214. The superintendent has the authority to modify the one-year suspension on a case-by-case basis. In deciding whether to modify the penalty, the superintendent may consider the following:

- a. The student's age
- b. The student's grade in school
- c. The student's prior disciplinary record
- d. The superintendent's belief that other forms of discipline may be more effective
- e. Input from parents, teachers, and/or others

Student Searches and Interrogations

The Board of Education is committed to ensuring an atmosphere on school property and at school functions that is safe and orderly. To achieve this kind of environment, any school official or Superintendent's designee authorized to impose a disciplinary penalty on a student may question a student about an alleged violation of law or the District Code of Conduct. Students are not entitled to any sort of "Miranda" type warning before being questioned by school officials, nor are school officials required to contact a student's parent before questioning the student. However, school officials will tell all students why they are being questioned.

In addition, the Board authorizes the superintendent, building principals, school nurse and District security officials to conduct searches of students and their belongings if the authorized school official has reasonable suspicion to believe that the search will result in evidence that the student violated the law or the District Code of Conduct.

A. Student Lockers, Desks and Other School Storage Places

The rules in this Code of Conduct regarding searches of students and their belongings do not apply to student lockers, desks and other storage places. Students have no reasonable expectation of privacy with respect to these places and school officials retain complete control over them. This means that student lockers, desks and other school storage places may be subject to search at any time by school officials, without prior notice to students and without their consent.

B. Student Parking on School Grounds

The School District retains the authority to conduct routine patrols of student parking lots and inspection of the exteriors of student automobiles on school property at any time. Such patrols and exterior inspections may be conducted without notice, without student or parental consent, and without probable cause or reasonable suspicion. As a condition of receiving a Student Permit representing the grant of the privilege to park a vehicle on school property, the parent or student must give consent to the random search of the interior of the student's automobile by School District authorities at any time while it is on school property.

Visitors to the School

The Board encourages parents and other District citizens to visit the District's schools and classrooms to observe the work of students, teachers and other staff. Since schools are a place of work and learning, however, certain limits must be set for such visits. There each visitor will be required to provide an appropriate and current form of identification prior to being issued a visitor's identification badge, which must be worn at all times while in the school or on school grounds. The visitor must return the identification badge to the principal's office before leaving the building.

3. Visitors attending school functions that are open to the public, such as parent teacher organization meetings or public gatherings, are not required to register.
4. Parents or citizens who wish to observe a classroom while school is in session are required to arrange such visits in advance with permission of the principal and the classroom teacher(s), so that class disruption is kept to a minimum.
5. Teachers are expected not to take class time to discuss individual matters with visitors.
6. Any unauthorized person on school property will be reported to the principal or his/her designee. Unauthorized persons will be asked to leave. The police may be called if the situation warrants.
7. All visitors are expected to abide by the rules for public conduct on school property contained in this Code of Conduct.
8. The District reserves the right to take appropriate action to prohibit and/or regulate future visits by any individuals who have been found to have violated these rules for public conduct on school property.
9. No lunch room visitors will be allowed at any school building without prior permission from the building level principal.

In order for the Board to enforce this policy, and to take corrective measures as may be necessary, it is essential that any student who believes he/she has been a victim of sexual harassment in the school environment, as well as any other person who is aware of and/or who has knowledge of or witnesses any possible occurrence of sexual harassment, should immediately report such alleged harassment. The District recognized that sexual harassment is a sensitive issue and that students may choose to inform any trusted staff member of suspected discrimination or harassment. Staff members who receive such complaints will immediately inform the Civil Rights Compliance Officer.

Where appropriate, the Civil Rights Compliance Officer may seek the assistance of the relevant Dignity Act Coordinator in investigating, responding to, and remedying student complaints of discrimination and/or harassment. In the event that the Civil Rights Compliance Officer is the alleged offender, the report will be directed to another Civil Rights Compliance Officer, if the District has designated an additional individual to serve in such capacity, or to the Superintendent.

The School District will act to promptly, thoroughly, and equitably investigate all complaints, whether verbal or written, of sexual harassment and will promptly take appropriate action to protect individuals from further sexual harassment. Additional information regarding the District's discrimination and harassment complaint and grievance procedures, including but not limited to the designation of the Civil Rights Compliance Officer, knowingly making false accusations, and possible corrective actions, can be found in Policy #3421 - Non-Discrimination and Anti-Harassment in the School District and Administrative Regulation #3421R - Non-Discrimination and Anti-Harassment in the School District.

Prohibition of Retaliatory Behavior

The Board prohibits any retaliatory behavior directed against complaints, victims, witnesses, and/or any other individuals who participated in the investigation of a complaint of sexual harassment. Complaints of retaliation may be directed to the Civil Rights Compliance Officer. In the event the Civil Rights Compliance Officer is the alleged offender, the report will be directed to another Civil Rights Compliance Officer, if the District has designated another individual to serve in such a capacity, or to the Superintendent.

SCOPE AND EXAMPLES OF VIOLATIONS OF THIS POLICY

Violations of this policy are recognizable in, but not limited to, the following types of behavior, actions and/or situations:

"DIFFERENT TREATMENT" VIOLATION occurs when an agent or employee of the District, acting within the scope of their official duties, has treated a student, employee, or guest differently on the basis of race, color, ethnic, cultural or religious background, gender, sexual orientation, or national origin in the context of an educational program, event or activity without legitimate, nondiscriminatory reason, so as to interfere with or limit the ability of the student, employee, or guest to participate in or benefit from the services, activities, opportunities or privileges provided by the District.

"HOSTILE ENVIRONMENT" VIOLATION occurs when the District creates or is responsible for a hostile environment (i.e. harassing, abusive, provocative or intimidating conduct [whether physical, verbal, graphic or written] relative to a person's race, color, ethnic, cultural or religious background, gender, sexual orientation, or national origin) that is sufficiently severe, pervasive or persistent so as to interfere with or limit the ability of an individual to participate in or benefit from the services, activities, opportunities or privileges provided by the District. The District has subjected an individual to different treatment in violation of this Policy if it has effectively caused, encouraged, accepted, tolerated or failed to correct a racially hostile environment of which it has actual or constructive notice.

The District acknowledges that, in determining whether a violation has occurred, the relevant particularized characteristics and circumstances of the victim will be taken into account when evaluating the severity of incidents in the district. If it is determined that the violation was sufficiently severe, pervasive or persistent that it would have adversely affected the enjoyment of some aspect of the District's educational program by a reasonable person of the same age and race as the victim under similar circumstances, the existence of a hostile environment will be found.

"DISTRICT'S HUMAN RIGHTS OFFICERS" shall individually and jointly refer to the Assistant Superintendent for Personnel Services and the Assistant Superintendent for Instruction.

REPORTING PROCEDURES

Any person who believes he/she has been the victim of harassment or intimidation in violation of this policy by a student or an employee of the district, or any third person with knowledge or belief of conduct which may constitute a violation should report the alleged acts immediately to an appropriate school District official designated in this Policy. The District encourages, but does not require, the reporting party or complainant to use the formal report form available from the principal of each building or available from the District's Central Office.

- A. In each School Building: Each building shall have two persons, one of whom shall be the building principal, designated as the person(s) responsible for receiving oral or written complaints or reports of violations of this policy at the building level. The District's Human Rights Officers shall establish guidelines for reporting and handling certain incidents promptly and directly at the building level (e.g. some verbal student-to-student cases). The District's Human Rights Officers shall be notified immediately of all other complaints or reports of violations of this policy without prior screening or investigating at the building level. Failure to forward any report or complaint as provided herein shall result in disciplinary action. If the complaint involves either of the two persons responsible for receiving the complaint at the building level, the complaint shall be filed directly with the district's Human Rights Officers.
- B. District-wide: The District's Human Rights Officers are authorized to receive reports or complaints of violations of this policy directly from any individual, employee, or victim of such harassment or intimidation and also from the building reporting officers as outlined above. If the complaint involves one of the Human Rights Officers, the complaint shall be filed directly with the superintendent.

The District shall conspicuously post in each building the names, mailing addresses and telephone numbers of the building reporting officers and the district's Human Rights Officers.

- C. The submission of a complaint or report of a violation of this Policy shall not affect the individual's future employment, grades or work assignments.

The District shall respect the confidentiality of the complainant and the individual(s) against whom the complaint is filed as much as possible, consistent with the District's legal obligations and the necessity to investigate allegations of harassment and the intimidation and to take disciplinary action when the conduct has occurred.

INVESTIGATION AND RECOMMENDATIONS

The District's Human Rights Officers, by authority of the District and its Board of Education, shall immediately initiate an investigation upon receipt of a report or complaint alleging harassment or intimidation in violation of this policy. The District's Human Rights Officer shall notify the Superintendent in writing that he/she is beginning an investigation. Such notification may exclude identifying information. If the Superintendent is the subject of the complaint, the Human Rights Officers shall notify the Board of Education. The investigation may be conducted by the District's Human Rights Officers, a building reporting officer or by a third party designated by the Human Rights Officers. The investigating party shall provide the Superintendent and the District's Human Rights Officers with an interim written report on the status of the investigation within ten (10) working days of the receipt of the complaint.

If the Superintendent is the subject of the of complaint, the status report shall be submitted to the Board of Education and to the District's Human Rights Officers.

In determining whether the alleged conduct constitutes harassment or intimidation in violation of this policy, the District should consider the surrounding circumstances, the nature of the relationships between the parties involved and the context in which the alleged incidents occurred. Whether a particular action or incident constituted harassment or intimidation requires a determination based upon all the facts and surrounding circumstances.

The investigation may consist of personal interviews with the complainant, the individual(s) against whom the complaint is filed, and others who may have knowledge of the alleged incident(s) or circumstances giving rise to the complaint. The investigation may also consist of any other methods or documents deemed pertinent by the investigator.

In addition, the District may take immediate steps at its discretion, to protect the complainant, students and employees pending completion of an investigation of alleged harassment or intimidation.

The investigating party shall make a final written report, which shall include a recommendation as to the validity of the complaint to the Superintendent and the District's Human Rights Officers upon the completion of the investigation, but no later than thirty (30) days from the initial receipt of the complaint. If the superintendent is the subject of the complaint, the final report shall be submitted to the Board of Education and to the Human Rights Officers.

SCHOOL DISTRICT ACTION

- A. Upon the receipt of a recommendation that the complaint is valid, the Superintendent shall take appropriate action based on the results of the investigation. If the Superintendent is the subject of the complaint, such action shall be taken by the Board of Education.
- B. The result of the investigation of each complaint filed under these procedures shall be reported in writing to the complainant by the Superintendent. If the Superintendent is the subject of the complaint, such report shall be made by the Board of Education. The report shall document any disciplinary action taken as a result of the complaint.
- C. The District may take disciplinary action against any person found to have maliciously filed a false complaint.

The District will discipline any individual who retaliates against any person who reports alleged harassment or intimidation in violation of this policy or who retaliates against any person who testifies, assists, or participates in an investigation, proceeding, or hearing related to a harassment or intimidation complaint. Retaliation includes, but is not limited to, any form of intimidation, reprisal, or harassment.

SUBJECT: COMPREHENSIVE STUDENT ATTENDANCE

Statement of Overall Objectives

The District is an active partner with students and parents in the task of ensuring that all students meet or exceed the New York State Learning Standards. The District recognizes that consistent school attendance, academic success and school completion have a positive correlation, and therefore has developed, and, if necessary, revise a Comprehensive Student Attendance Policy to meet the following objectives:

- a) Increase school completion for all students;
- b) Raise student achievement and close gaps in student performance;
- c) Identify attendance patterns in order to design attendance improvement efforts;
- d) Know the whereabouts of every student for safety and other reasons;
- e) Verify that individual students are complying with education laws relating to compulsory attendance;
- f) Determine the District's average daily attendance for state aid purposes.

Description of Strategies to Meet Objectives

The District will:

- a) Create and maintain a positive school building culture by fostering a positive physical and psychological environment where the presence of strong adult role models encourages respectful and nurturing interactions between adults and students. This positive school culture is aimed at encouraging a high level of student bonding to the school, which in turn should lead to increased attendance.
- b) Maintain accurate recordkeeping via a Register of Attendance to record attendance, absence, tardiness or early departure of each student.
- c) Utilize data analysis systems for tracking individual student attendance and individual and group trends in student attendance problems.
- d) Develop early intervention strategies to improve school attendance for all students.

Determination of Excused and Unexcused Absences, Tardiness and Early Departures

Based upon our District's education and community needs, values and priorities, the District has determined that absences, tardiness and early departures will be considered excused or unexcused according to the following standards.

- a) Excused: An absence, tardiness or early departure may be excused if due to personal illness, illness or death in the family, impassable roads due to inclement weather, religious observance, quarantine, required court appearances, attendance at health clinics, approved college visits, approved cooperative work programs, military obligations or other reasons as may be approved by the Board.

b) Unexcused: An absence, tardiness or early departure is considered unexcused if the reason for the lack of attendance does not fall into the above categories (e.g., family vacation, hunting, baby-sitting, haircut, obtaining a learner's permit, road test, oversleeping).

A written excuse, signed by a parent, or person in parental relation should be presented by the student when returning to school following each absence. If a written note is not submitted within 10 days it will be considered an illegal absence.

Student Attendance Recordkeeping/Data Collection

The record of each student's presence, absence, tardiness, and early departure will be kept in a register of attendance in a manner consistent with Commissioner's regulations. An absence, tardiness, or early departure will be entered as "excused" or "unexcused" along with the District code for the reason.

Attendance will be taken and recorded in accordance with the following:

a) For students in non-departmentalized kindergarten through grade 8 (i.e., self-contained classrooms and supervised group movement to other scheduled school activities such as physical education in the gym, assembly, etc.), the student's presence or absence will be recorded after the taking of attendance once per school day, provided that students are not dismissed from school grounds during a lunch period. Where students are dismissed for lunch, their presence or absence will also be recorded after the taking of attendance a second time upon the student's return from lunch. For purposes of APPR and Student Data Linkages (TSDL), classroom attendance for students in grades all K through 12 must be recorded on a subject by subject basis for Teacher of Record Determination.

b) For students in grades 9 through 12 or in departmentalized schools at any grade level (i.e., students pass individually to different classes throughout the day), each student's presence or absence will be recorded after the taking of attendance in each period of scheduled instruction.

c) Any absence for a school day or portion thereof will be recorded as excused or unexcused in accordance with the standards articulated in this policy.

d) In the event that a student at any instructional level from grades K through 12 arrives late for, or departs early from, scheduled instruction, such the tardiness or early departure will be recorded as excused or unexcused in accordance with standards articulated in this policy.

A record will be kept of each scheduled day of instruction during which the school is closed for all or part of the day because of extraordinary circumstances including adverse weather conditions, impairment of heating facilities, insufficiency of water supply, shortage of fuel, destruction of or damage to a school building, or other cause as may be found satisfactory to the Commissioner of Education.

Attendance records will also indicate the date when a student withdraws from enrollment or is dropped from enrollment in accordance with Education Law Section 3202(1-a).

At the conclusion of each class period or school day, all attendance information will be compiled and provided to the designated school personnel who are responsible for attendance. The nature of the absence, tardiness, or early departure will be coded on a student's record in accordance with the established District or building procedures.

Student Attendance and Course Credit

The District believes that classroom participation is related to, and affects, a student's performance and grasp of the subject matter and, as such, is properly reflected in a student's final grade. For purposes of this policy, classroom participation means that a student is in class and prepared to work.

Consequently, for each marking period, a certain percentage of a student's final grade will be based on classroom performance on homework, tests, papers, projects, etc. as determined by the building administrator and classroom teacher.

Students are expected to attend all scheduled classes. Consistent with the importance of classroom participation, unexcused student absences, tardiness, and early departures may affect a student's grade, including credit for classroom participation, for the marking period.

The District may not deny course credit to a student who has excessive absences but has taken all tests, completed missed class work, and secured a passing grade.

For summer school and courses meeting 1/2 year or 1/4 year, the same policy will apply.

Transfer students and students re-enrolling after having dropped out will be expected to complete all required classwork and secure a passing grade during their time of enrollment.

Students will be considered in attendance if the student is:

- a) Physically present in the classroom or working under the direction of the classroom teacher during the class scheduled meeting time; or
- b) Working under an approved independent study program; or
- c) Receiving approved alternative instruction.

Students who are absent from class due to their participation in a school-sponsored activity must arrange with their teachers to make up any work missed in a timely manner as determined by the student's teacher. Attendance at school-sponsored events where instruction is substantially equivalent to the instruction which was missed will be counted as the equivalent of regular attendance in class.

Upon returning to school following a properly excused absence, tardiness, or early departure, it will be the responsibility of the student to consult with his or her teacher(s) regarding arrangements to make up missed work, assignments, and/or tests in accordance with the time schedule specified by the teacher.

Notice of Attendance Standard/Intervention Strategies Prior to the Denial of Course Credit

In order to ensure that parents or persons in parental relation and students are informed of the District's policy regarding attendance and course credit, and the implementation of specific intervention strategies to be employed prior to the denial of course credit to the student for insufficient attendance, the following guidelines will be followed:

- a) Copies of the District's Comprehensive Student Attendance Policy will be available to parents or persons in parental relation and provided to students at the beginning of each school year or at the time of enrollment in the District.
- b) School newsletters and publications will include periodic reminders of the components of the District's comprehensive Student Attendance Policy. Copies of the Attendance Policy will also be included in parent or student handbooks or posted on the District website.
- c) At periodic intervals, a designated staff member(s) will notify, by telephone, the parent or person in parental relation of the student's absence, tardiness, or early departure and explain the relationship of the student's attendance to his or her ability to receive course credit. If the parent or person in parental relation cannot be reached by telephone, a letter will be sent detailing this information.
- d) A designated staff member will review the District's Attendance Policy with students who have excessive and/or unexcused absences, tardiness, or early departures. Further, appropriate student support services within the District, including credit recovery, as well as the possible collaboration or referral to community support services and agencies, will be implemented prior to the denial of course credit.

Notice of Students Who are Absent, Tardy or Depart Early Without Proper Excuse

A designated staff member will notify by telephone the parent or person in parental relation to a student who is absent, tardy or departs early without proper excuse. The staff member will explain the District's Comprehensive Student Attendance Policy, the District's or

building level intervention procedures, and, if appropriate, the relationship between student attendance and course credit. If the parent or person in parental relation cannot be reached by telephone, the staff member will provide the notification by mail. Further, the District's Attendance Policy will be mailed to the parent or person in parental relation to promote awareness and help ensure compliance with the policy.

If deemed necessary by appropriate school officials, or if requested by the parent or person in parental relation, a school conference will be scheduled between the parent or person in parental relation and appropriate staff members in order to address the student's attendance. The student may also be requested to attend this conference in order to address appropriate intervention strategies that best meet the needs of the student.

Chronic Absenteeism

Chronic absenteeism is defined as missing at least 10% of enrolled school days in a year for any reason, excused or unexcused. Chronic absenteeism differs from truancy because it emphasizes missed instructional time rather than unexcused absences. Missed instructional time can increase a student's risk for disengagement, low achievement, and dropping out, among other things.

Students who miss at least 5% of enrolled school days in a year are at risk of becoming chronically absent. In light of this, the District will implement intervention strategies for students who miss 5% or more of the enrolled school days in a year.

Attendance Incentives

In order to encourage student attendance, the District will develop and implement grade-appropriate or building-level strategies and programs including, but not limited to:

- a) Attendance honor rolls to be posted in prominent places in District buildings and included in District newsletters and, with parent or person in parental relation consent, in community publications;
- b) Monthly drawings for prizes at each grade level to reward perfect attendance;
- c) Special events (e.g., assemblies, guest speakers, field days) scheduled on days that historically have high absenteeism (e.g., Mondays, Fridays, day before vacation);
- d) Grade-level rewards at each building for best attendance;
- e) Classroom acknowledgment of the importance of good attendance (e.g., individual certificates, recognition chart, bulletin boards);
- f) Annual poster or essay contest on importance of good attendance;
- g) Assemblies collaboratively developed and promoted by student council, administration, PTA/PTO, and other community groups to promote good attendance.

Disciplinary Consequences

Unexcused absences, tardiness and early departures will result in disciplinary sanctions as described in the District's Code of Conduct. Negative consequences will not be imposed, however, where the absence, tardiness, or early departure is related to homelessness. Consequences may include, but are not limited to, in-school suspension, detention and denial of participation in interscholastic and extracurricular activities. Parents or persons in parental relation will be notified by designated District personnel at periodic intervals to discuss their child's absence, tardiness or early departures and the importance of class attendance and appropriate interventions. Individual buildings and grade levels will address procedures to implement the notification process to the parent or person in parental relation.

Intervention Strategy Process

In order to effectively intervene when an identified pattern of excused absences, unexcused absences, tardiness, or early departures occur, designated District personnel will pursue the following:

- a) Identify specific elements of the pattern (e.g., grade level, building, time frame, type of excused absences, unexcused absences, tardiness, or early departures);
- b) Contact the District staff most closely associated with the element. In specific cases where the pattern involves an individual student, the student and parent or person in parental relation will be contacted;
- c) Discuss strategies to directly intervene with the specific element;
- d) Recommend intervention to the Superintendent or designee if it relates to change in District policy or procedure.
- e) Implement changes, as approved by appropriate administration;
- f) Utilize appropriate District and/or community resources to address and help remediate student unexcused absences, tardiness, or early departures.
- g) Monitor and report short and long term effects of intervention.

Appeal Process

A parent or person in parental relation may request a building level review of his or her child's attendance record.

Building Review of Attendance Records

The building principal will work in conjunction with the building attendance clerk and other designated staff in reviewing attendance records at the end of each term. This review is conducted to identify individual and group attendance patterns and to initiate appropriate action to address the problem of unexcused absences, tardiness and early departures.

Annual Review by the Board

The Board will annually review the building level student attendance records and if those records show a decline in student attendance, the Board will make any revisions to the Policy and plan deemed necessary to improve student attendance.

Community Awareness

The Board will promote necessary community awareness of the District's Comprehensive Student Attendance Policy by:

- a) Providing a plain language summary of the policy to parents or persons in parental relation to students at the beginning of each school year and promoting the understanding of this policy to students and their parents or persons in parental relation;
- b) Providing each teacher, at the beginning of the school year or upon employment, with a copy of the policy; and
- c) Providing copies of the policy to any other member of the community upon request.

SUBJECT: BULLYING IN THE SCHOOLS

The Board of Education is committed to providing a safe and productive learning environment within its schools. Bullying of a student by another student is strictly prohibited on school property, in school buildings, on school buses, and at school sponsored events and/or activities whether occurring on or off campus. The Board of Education shall require the prohibition of bullying - along with the range of possible intervention activities and/or sanctions for such misconduct - to be included in the District Code of Conduct for all grade levels.

For purposes of this policy, the term "bullying" among children is defined, in general, as: "a variety of negative acts carried out repeatedly over time. It involves a real or perceived imbalance of power, with a more powerful child or group attacking those who are less powerful." Bullying can take three forms:

- a) Physical (including, but not limited to, hitting, kicking, spitting, pushing, taking personal belongings);
- b) Verbal (including, but not limited to, taunting, malicious teasing, name calling, making threats); and
- c) Psychological (including, but not limited to, spreading rumors; manipulating social relationships; or engaging in social exclusion, extortion, or intimidation).

Although this Policy focuses on the bullying of a student by another student, it should be noted that bullying against any individual is strictly prohibited. This includes bullying of staff members against students, students against staff members, staff members against other staff members, and bullying by or against any parents, persons in parental relation, volunteers, visitors or vendors who may be on school property or at school sponsored events as defined above.

Engages in Cyberbullying Behavior

As with other forms of bullying, cyberbullying is an attempt to display power and control over someone perceived as weaker. Cyberbullying involving District students may occur both on campus and off school grounds and may involve student use of the District Technology system or student use of personal digital devices while at school, such as cell phones, digital cameras, and personal computers to engage in bullying.

Cyberbullying includes, but is not limited to, the following misuses of technology: harassing, teasing, intimidating, threatening, or terrorizing another student or staff member by way of any technological tool, such as sending or posting inappropriate or derogatory e-mail messages, instant messages, text messages, digital pictures or images, or Web site postings (including blogs or social networking sites):

Cyberbullying has the effect of:

- a) Physically, emotionally or mentally harming a student;
- b) Placing a student in reasonable fear of physical, emotional or mental harm;
- c) Placing a student in reasonable fear of damage to or loss of personal property; and
- d) Creating an intimidating or hostile environment that substantially interferes with a student's educational opportunities.

Also, cyberbullying that occurs off-campus, that causes or threatens to cause a material or substantial disruption in the school, could allow school officials to apply the "***Tinker*** standard" where a student's off-campus "speech" may be subject to formal discipline by school officials when it is determined that the off-campus speech did cause a substantial disruption or threat thereof within the school setting [*Tinker v. Des Moines Indep. Sch. Dist.* 393 U.S. 503 (1969)]. Such conduct could also be subject to appropriate disciplinary action in accordance with the *District Code of Conduct* and possible referral to local law enforcement authorities.

Reports of Allegations of Bullying/Cyberbullying Behavior

Any student who believes that he/she is being subjected to bullying/ cyberbullying behavior, as well as any other person who has knowledge of or witnesses any possible occurrence of bullying, will report the bullying to any staff member or the Building Principal or his/her designee. The staff member/Building Principal to whom the report is made (or the staff member/Building Principal who witnesses bullying behavior) will promptly, thoroughly and equitably investigate the complaint and take appropriate action to include, as necessary, referral to the next level of supervisory authority and/or other official designated by the District to investigate allegations of bullying. Investigation of allegations of bullying will follow the procedures utilized for complaints of harassment within the School District. Allegations of bullying will be promptly and equitably investigated and will be treated as confidential and private to the extent possible within legal constraints.

Prevention and Intervention

Personnel at all levels are responsible for taking corrective action to prevent bullying behavior of which they have been made aware at School District sites or activities and/or reporting such behavior to their immediate supervisor. Further, staff training shall be provided to raise awareness of the problem of bullying within the schools and to facilitate staff identification of and response to such bullying behavior among students.

Prevention and intervention techniques within the District to prevent against bullying behavior and to support and protect victims shall include building-level and classroom-level strategies and activities as determined by administration. Individual intervention will be provided by appropriate staff members to bullies, victims and their parents to help ensure that the bullying stops.

Rules against bullying shall be publicized District-wide and shall be disseminated as appropriate to staff, students and parents.

Prohibition of Retaliatory Behavior (Commonly Known as "Whistle-Blower" Protection)

The Board prohibits any retaliatory behavior directed against complainants, victims, witnesses, and/or any other individuals who participate in the investigation of allegations of bullying. Follow-up inquiries and/or appropriate monitoring of the alleged bully and victim shall be made to ensure that bullying behavior has not resumed and that all those involved in the investigation of allegations of bullying have not suffered retaliation.

LOCKERS

Students may be assigned corridor lockers, and/or gym lockers. School lockers are school property and remain at all times under the control of the school. Any unauthorized lock attached to a locker will be removed. The school can take no responsibility for articles stolen from lockers. Students should not expect privacy regarding items placed in school property because school property is subject to search at any time without notice.

USE OF SCHOOL PHONES

No student is to use school phones without office permission. If a student is ill or injured, school personnel will contact the home; it will not be necessary for the student to do so. Accepting responsibility for forgotten items is a part of growing up. It should not be necessary for a student to call home to have family members accept this responsibility.

SELLING ITEMS

Students are not to sell any items for outside groups, or take orders for items in school, on school property, or on school buses.

HOMEWORK

Homework is assigned to elementary students as an extension of learning experiences initiated in the classroom. It serves to help students practice and reinforce those skills and concepts taught in the classroom. It may involve either written or study work to be done on their own time. Students are expected to complete such assignments on time to the best of their ability and to assume responsibility for making up work when absent.

Parents are encouraged to establish with the child an appropriate time and place to do this homework. They should monitor but not do the homework. This may be a tool whereby parents can participate in the student's learning experience and together with the school, help the child develop good work and study habits.

BICYCLES

Students, with a written request from their parents and approval of the school principal, may ride their bicycles to school. No bicycles are to be ridden on school property and must be walked on the sidewalks. They are to be parked in designated areas. To insure the safety of their bicycles, students are encouraged to use locks. The District cannot be responsible for the loss, theft or damage of bicycles. Students must obey all safety regulations regarding the wearing of helmets when riding a bicycle to and from school in accordance with the New York State Vehicle and Traffic Law.

AUTOMOBILE TRANSPORTATION

Students transported by automobile are to be dropped off in areas designated by the school.

ATTENDANCE AND HEALTH SERVICES

The State Law requires that all pupils be in school on days that school is in session. The elementary school attendance policy encourages a positive attitude toward excellence in school attendance. Regular attendance at school is a very important component in the total educational plan of each student. The establishment of regular attendance in the early years of a child's school experience is well worth the effort and will prove profitable. The student learns to accept the responsibility and self-discipline so necessary to achieve success in life. Each day a child is absent, the sequence of learning is broken and planned activities are missed. Please assist the school by stressing punctuality and regular school attendance with your child. **It is the responsibility of the parent or guardian to call the school in the morning each day if their child is going to be absent for any reason.** If it is necessary to be absent or tardy, a written excuse from the parent must be presented upon return to school.

Parent or Guardian Signature

If it is known in advance that a student will be absent or tardy for any reason, the parent/guardian should contact the teacher, in writing, prior to the absence or tardiness. If a student is to be released prior to dismissal, the parent/guardian must come to the office to sign the official attendance log.

A. Appointments During School Hours - Pupils may be released during school hours only upon the written request of a parent or guardian. A child will not be released to any person except upon presentation of a written request by the parent or guardian. Parents are encouraged to avoid whenever possible the use of instructional time for appointments or observances that can be scheduled outside the school day.

However, if appointments are scheduled during school hours, the following conditions must be met:

1. Written request must be made prior to release of the child.
2. The child should be called for at the office.
3. When the appointment is the first thing in the morning, the child is considered tardy.

B. Emergencies - Sometimes in the course of a day, a pupil becomes ill or injured and it becomes necessary to communicate with the home. For the safety and well-being of all students, sick and injured students should be picked up by their families rather than riding home on school buses. Often, we find that parents are employed or not at home. Therefore, the school must have an employer's telephone number or other number at which parents can be reached. It is important to have the telephone number of a relative or neighbor who will pick up and care for a child. It is vitally important that these emergency numbers be kept up to date. In cases of home emergencies, a pupil may be released upon the telephone request of a responsible adult providing the school is able to verify the call. Requests for release during school hours must be submitted to allow sufficient time for the information to be verified.

C. Attendance in Physical Education - Physical education is mandatory for all students. A statement from the doctor is required if a child, for medical reasons, is not able to take physical education for a period of time, or is to have a limited program. A doctor's statement is required to remove limitations and return the student to regular physical education classes. Exclusion or limited participation in a single class may be granted for medical reasons. Students must have sneakers for physical education. In grades 4-6, students are expected to have a change of clothes and to shower after class where facilities exist.
