Principal's Notes

- Every five weeks, there will be a district-wide analysis of attendance patterns in each of our Frontier School buildings. Students who miss 10% of the semester school days will receive attendance information letters or additional contact by our school personnel. It is our goal to partner with our families to reduce absenteeism rates in our schools. Consistent attendance and participation in school promotes social, emotional and academic growth in our students.
- Please make sure Big Tree Elementary has the most current copies of custodial documents on file. Our school must comply with the most current documents we have on record. Updates should be sent to Donna Bianca in the main office.
- Colder weather - We are seeing a lot of our students entering and exiting without appropriate cold weather clothing. This winter has already shown us several challenges with changing weather conditions. Please make sure your child is in the appropriate cold weather attire.
- Our school drop-off time is 8:30 am. Most staff members are participating in meetings, planning, or staff development initiatives. We do not have staff available to supervise for early drop off or late pick up. Please consider using the Right at School Before and After School program should you have these needs. Information can be found on the district website under the community tab.
