Re: Bus stop pick up times

---

Frontier Families:

During the first week of school the District analyzed each of our bus routes. For all four tiers of bus runs, we continuously try to optimize Transportation's ability to service the students and found that the high level of pedestrian traffic at the High School in the morning is causing significant delays in arrival times for our buses. The ripple effect to this is causing a delay in arrival time for our Middle School students as well.

To remedy this time delay and cause the least disruption, the District will be picking up **Middle School and High School students only**, 7-10 minutes earlier than the initially scheduled bus pick up time. This pick up time will begin tomorrow morning. Afternoon drop off times will not be affected, nor does the elementary #1 and #2 run home.

Thank you for your continued support while we adjust our bus routes and times as quickly and efficiently as possible for the betterment of our school community.
