January 3, 2022

Frontier Families:

The Covid test pick up on New Year's Day was a tremendous success. The District was able to hand deliver over 1800 tests to families. Part two of the distribution plan will be in action today at our schools. At the High School, administration will be passing out Covid tests for all school age students in the home. If you are a family with multiple students in different buildings, your high school age child will bring home the test for all students, there is no need for you to come to the District. For those families K-8 that did not receive their tests on Saturday and do not have a high school age child, arrangements have already been sent out from your home school to receive the test.

Sincerely,

A handwritten signature in blue ink, appearing to read "Chris Swiatek".

Christopher J. Swiatek  
Superintendent of Schools
