Dear Frontier Families,

We understand the importance of before-and after-school programs for many families. We are making a change in the 2020–21 school year, and have selected a program that is high-quality, more affordable, flexible, and is available at all elementary schools. The program is *Right At School* which offers engaging curriculum to help spark the joy of learning and 21st Century skill development such as critical thinking, problem-solving, collaboration, leadership and more. It's also a program used in other districts around the country, and we are pleased to bring it to Frontier Schools.

The shift to *Right At School* will provide more options for parents. The number of seats in the program will no longer be capped as more staff can be hired to meet the needs of families. More enrollment options will be offered at each elementary school from 6:45 a.m. to 5:45 p.m. The curriculum supports educational standards in English Language Arts, Literacy, Math, Science, Social Studies, Social-emotional learning, the Arts and Physical Fitness, all while having fun. Even with the change to *Right At School*, we are able to provide a before-and after-school program well below the cost of other providers in the district.

A virtual parent forum was held on June 9th. The link below is a recording of that forum where parents were able to ask questions.
