

Frontier Central School District
Remote Learning Plan: Pre-K-12

August 14, 2020

Addressing Inequities:

- Small group and individual student meeting times will be based on student need
- Individual support with SPED Teachers, ENL Teachers, and Related Service providers will be based on individual student needs and programming
- Supportive documents, resources and professional learning opportunities will be provided to parents on the district webpage. In addition, students and families will have access to a district email address for tech support
- Programmatic changes will be considered based on individual student need

Number of Students:

- The numbers of students included in full remote learning will be based on the Reopening Survey. As of August 14th, parent survey results indicate that approximately 18% of respondents expressed an interest in the full remote learning option for their children.

Mode of Learning / Asynchronous and Synchronous Instruction:

- Common Learning Management System (K-12) will be Google Classroom
- Clearly communicated schedule and expectations (daily schedule, weekly schedule)
- Daily meetings to address social-emotional and academic concerns and/or “red flags”
- Daily lesson schedule will include both synchronous and asynchronous instruction
- Teachers will leverage technology to access content and curricular activities
- Method(s) of ongoing formative assessment with frequent feedback for students will occur with consistency
- Office hours will be available to students and parents daily
- The district’s commitment to academics, social-emotional learning and equity will continually be emphasized
- Use of Classlink for access to the district-approved listing of applications and software

Internet and Device Access & Alternatives Available for Students without devices or internet access:

- Utilize community survey results to determine need for both devices and internet access
- Create a plan for deployment of devices
- Required documentation will be signed by parents and retained by the district
- Technological support will be provided by the district technology team
